

Slaughter Availability to Small Livestock and Poultry Producers - Maps

Information as of
May 4, 2010

Goals

1. Identify areas in the U.S. with relatively high densities of small livestock and poultry producers, but without a nearby slaughter facility
2. Provide assistance, through KYF2, to increase slaughter availability in these areas, benefiting both local food systems and the public health

Data

- Slaughter establishment and rendering firm locations and sizes are from FSIS databases
- Livestock and poultry producer densities per county are based the NASS 2007 Agricultural Census

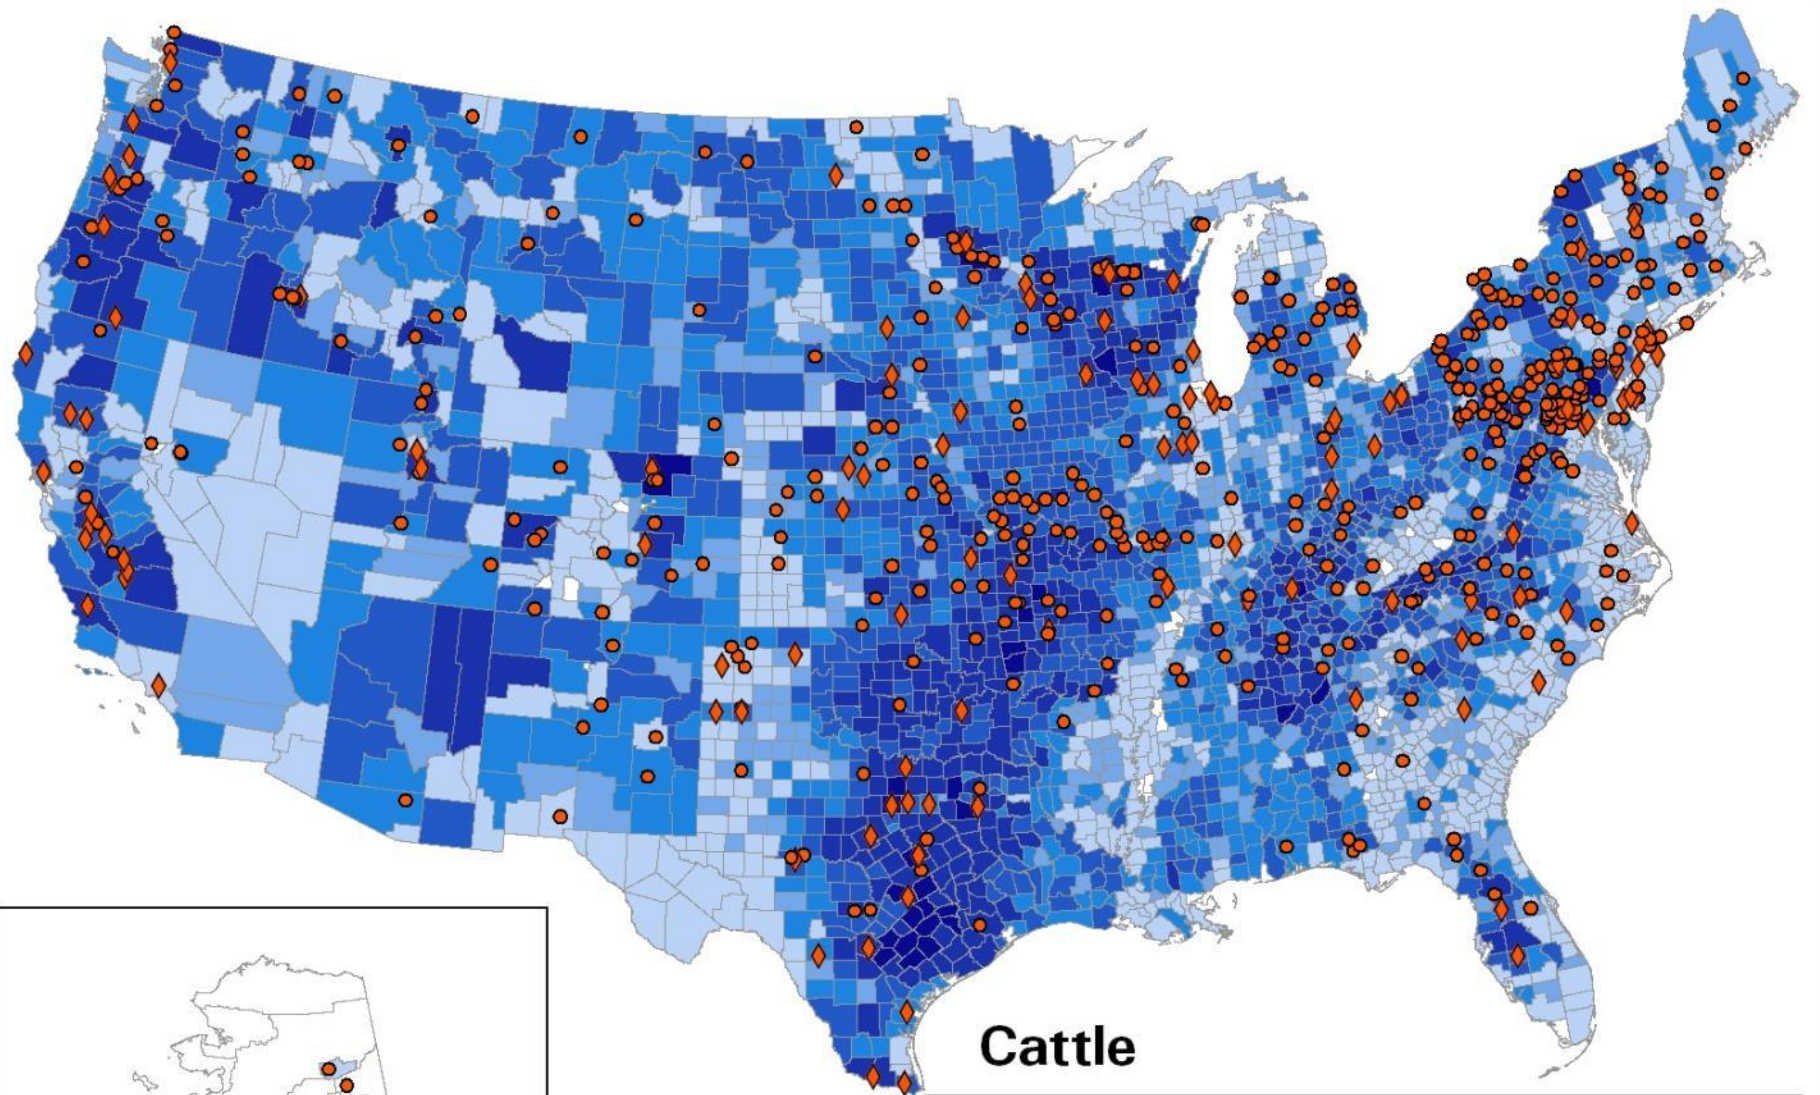

Small Establishments

- Small slaughter establishments have between 10 and 499 employees
- Very small slaughter establishments have fewer than 10 employees or less than \$2.5 million in annual sales

Small Producers

- Small livestock and poultry producers have annual sales of \$250K or less
